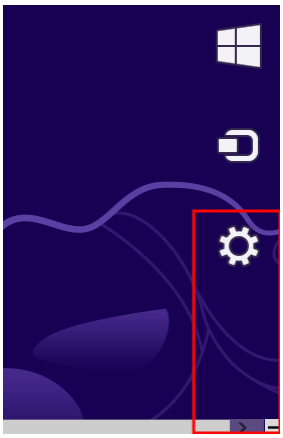
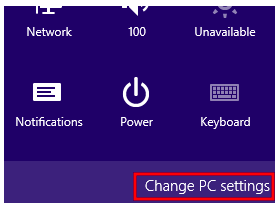
Before Installing Mini-X Unsigned Drivers in Windows 8

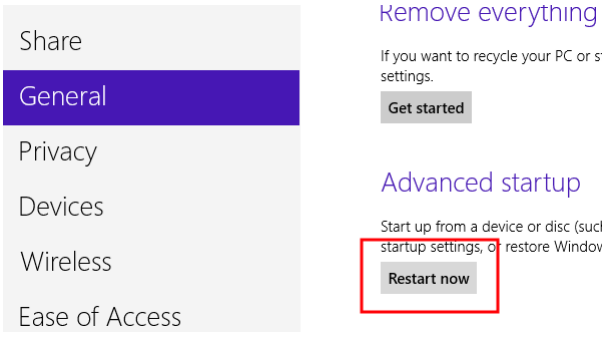
- Windows 8 by default will not let you install unsigned drivers.
- In order to install an unsigned driver you can follow the steps shown below.
- The steps shown below start Windows 8 in "Disable Driver Signature Enforcement" mode.



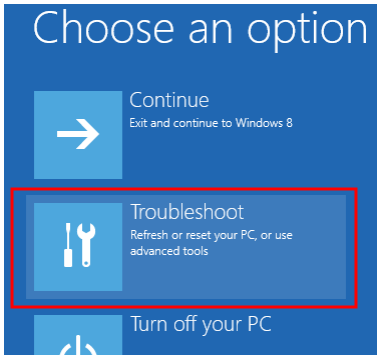
Move the cursor over bottom right corner of the screen.This brings up the **Charm Bar** in Windows 8.Choose the Settings option (icon looks like a Gear).



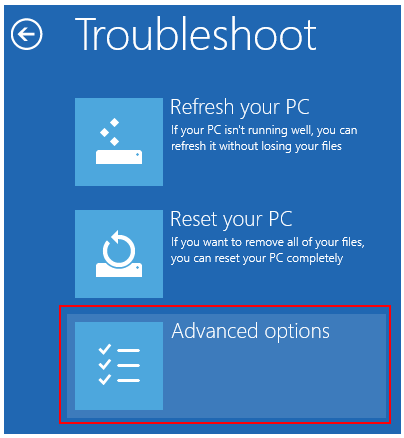
Choose **Change PC settings** option



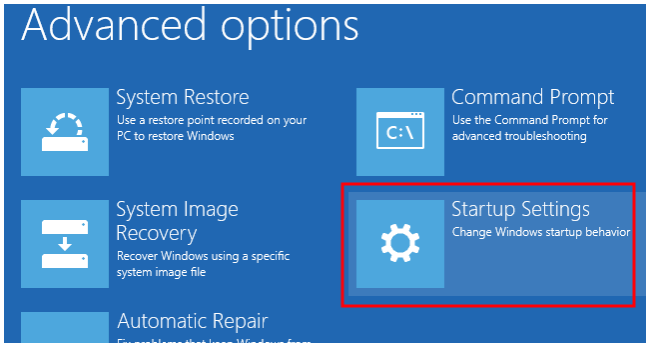
Choose **General** on the left hand side and then click **Restart now** button on the right



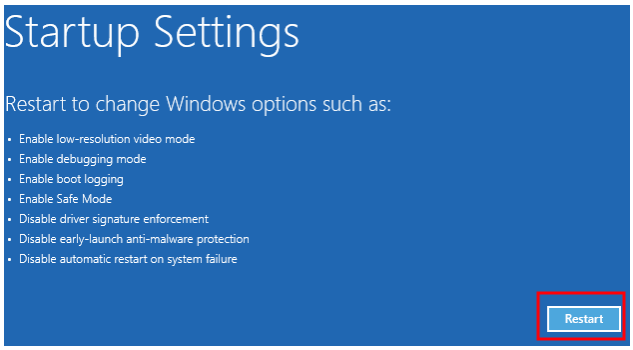
Click **Troubleshoot**



Click **Avanced options**



Click **Startup Settings**



Click the **Restart** button

Choose the **Disable Driver Signature Enforcement** and hit the Enter key to start Windows

You are now ready to install the Mini-X drivers. After installing the Mini-X drivers, reboot the computer.Windows 8 will back in "Driver Signature Enforcement" mode.
